

Continental Airlines Negotiations Update

September 10, 2010,

Dear Members,

The negotiating committee continued to work proposing language changes and reviewing existing TA'd language in order to finalize a Tentative Agreement with the company. That TA was reached yesterday. The Tentative Agreement will be posted on the International's web site as well as several Local's web sites.

We are currently working on the road show schedules as well as the supporting documents (bullet point summary and spreadsheets) that will be distributed with the Tentative Agreement when the proposal is mailed out to the membership for the ratification vote. It will take a week to print and mail out the documents. We anticipate the mailing to start on September 17, 2010, followed by the vote count in mid October. We will also update you when and where the vote count will take place.

In Solidarity,

Robert Rasch
President Teamsters Local 19, Committee Co-Chair
