

Make the 4.4.11 Promise

Join Your Fellow Teamsters And Take a Stand for Workers Nationwide!

On April 4, 1968, Dr. Martin Luther King Jr., was killed because he fought for Memphis sanitation workers' right to bargain collectively.

Today we are engaged in new battles in the war on workers. From Wisconsin to Ohio to states across the country, politicians and their CEO supporters are pushing partisan agendas to strip workers of their rights and weaken the middle class. Hundreds of thousands of Teamsters and our allies are coming together and taking a stand against these attacks.

For decades, we have led the charge to lift up the middle class. Teamsters supported Dr. King throughout his struggle for both civil rights and workers' rights. Dr. King understood that unions standing together with the civil rights movement could bring good jobs and dignity to millions of workers. It's because of unions that we have the 40-hour work week, the eight-hour day, decent wages and health care benefits, retirement security, safer workplaces and a solid middle class. And we are not going to sit down and let corporate-backed politicians take these rights away!

HERE'S WHAT YOU CAN DO ON 4.4.11
