

Truckers Facing National Disaster!

Diesel Surcharge

Now!

Month **00**

TIME

PLACE

When hurricanes, tornados or earthquakes strike, President Bush is quick to declare a National Disaster. He sent his Dad and Bill Clinton to Indonesia. He has distributed hundreds of millions for relief programs in the U.S. and overseas.

The Skyrocketing cost of diesel fuel in the United States is creating our own Tsunami; a disaster that threatens to wipe out thousands of intermodal truck drivers. Let's face it. No one was making much money a few years ago when diesel fuel was a dollar a gallon cheaper. Today, fuel expenses wipe out funds for maintenance and repair—and even the funds you need to feed and clothe your families.

It's time for action. It's time to protest.
It's time to stand up for your rights.

**Tell Congress to pass
mandatory fuel surcharge legislation.**

TEAMSTERS PORT DIVISION

This flyer does not nor does it intend to ask drivers or port employees to cease work or cease deliveries.
